CROSSFIELD LUMBER YARD

LUMBER!

LUMBER!

LUMBER!

Get Your Heads Together
and figure out the cost of the lumber for your granary, house, barn, etc., you are going to build. Let us put you in the right path and save you trouble and money by figuring out an estimate for you that will show you just what the cost will be. Then look at the quality of our lumber and beat the estimate if you can. We do all our own Turning Sawing, etc.

Lethbridge Gault Coal.

CROSSFIELD LUMBER YARD,
GEO. BECKER, Prop.

?

If you saw a man walking along the road with a sack of coins throwing them at whatever drew his attention, what would you think? That he was wasteful or a fool.

BEWARE! You may be in the same fix. How are your Mowers, Rakes, Stackers, Sweeps, Hay Loaders, etc. Are they throwing away your time, labor and temper, all of which mean money at this season of the year, when labor is expensive and the season short.

We can supply you with the best machinery the market produces, DEERING Mowers and Rakes, DAIN Sweep Rakes, Stackers and Wagon Loaders are all recognized as standards and guaranteed by the Makers.

We also carry a stock of the best axle grease and machine oil at the lowest prices.

Cattle branded A on left rib. Aug 14

YANKEE VALLEY BIG OAT YIELDS.

I. L. Flager from Cedar Falls, Iowa, who owns 1200 acres of land east of Airdrie in Yankee Valley district returned home after a few weeks spent at his farm while the threshing was in progress. Mr. Flager reports that they have threshed on his place over 26,000 bushels of grain and have yet to thresh something between 12,000 to 15,000 more. One field of 200 acres made 19,500 bushels of oats and he says that of this field 100 acres net well over the 100 bushels per acre. Mr. Flager rents his land for half the crop and furnishes the seed to the tenant and is very well pleased with his crop which will net him six to ten dollars per acre rent, depending upon the price of grain when it sells, as he is holding his crop for higher prices. Mr. Flager has been the owner of considerable land in Iowa, but says he never secured so much rent from any land there, some of which would now sell for \$100 per acre.

In this same district R. C. Hamm reports a yield of 6,317 bushels of oats from sixty acres, an average of about 104 bushels per acre, raised on section 26-26-28.

On section 28-26-28 Ezra Clark has threshed this season 106 bushels of oats per acre. These yields are all machine measure and as the oats weigh from thirty-seven to forty-five pounds per bushel the yield will be materially increased when the crop is put over the scales.

"THE SOUL'S AWAKENING."

The new premium picture given to all subscribers to the Family Herald and Western Star, of Montreal, is certainly a beauty.

Never in the history of newspapers has there been such enthusiasm over a premium as "The Soul's Awakening," has created during the past two weeks. Almost every newspaper in Canada has published most flattering tributes to The Family Herald's enterprise. Description of all denominations has written thanking the Publisher for giving to the people of Canada an opportunity to possess such a picture. Every mail brings scores of letters from parents, fathers and mothers, expressing their sincere gratitude for furnishing the home with such an elevating influence. School Inspectors have written suggesting that every school room in Canada should have a copy of "The Soul's Awakening," believing that it will have a powerful, though silent influence on the minds of the children. The Family Herald and Star alone is big value at one dollar, but with this picture as a premium, it looks like giving away money. It is said the supply is limited and there is a big rush of subscriptions. No one should miss it.

CROSSFIELD

Good road to Downie's Coal Mine. List your land with S. Downie & Sons, Carstairs, for quick sale.

Look out for Ladies' Aid sale of fancy goods and supper—November 26th.

If you want to sell your farm for cash, see Hulgren & Davie.

Methodist Church service is held every Sunday afternoon at 3:30 p.m.

There will be a Bible School in the Methodist Church at 2:30 p.m. All are invited.

I have a man that wants to buy a section on crop payments, he will agree to break out 250 acres each year and deliver half of the crop in the granary. If you have a section to sell that way, drop a line to Geo. E. Kennedy, Carstairs, Alta.

Local and General.

Have you subscribed yet?

Downie & Sons can sell your land. What about re-organizing the band?

Buy your coal from Downie's Mine.

L. W. Fisher took a trip to Calgary this week.

Dr. and Mrs. Bishop paid a visit to Calgary on Friday.

Mr. Stooke was a visitor to Calgary this week.

Mrs. James McLaren, of Calgary, is visiting Crossfield.

Guy Handley has gone down to Montana for a few weeks.

A rink being assured it is time now to get the hockey club going again.

The threshers are exceedingly busy and some remarkably good yields are reported.

Thanksgiving Day was fittingly celebrated on Monday. All the stores in town were closed.

Mr. Moore, of Vancouver, was in town on Wednesday and took several orders for gasoline lights.

Miss Candlemire, the new teacher for the Sunshine School arrived last Saturday and has taken over her new duties.

Tom Hagel has recently disposed of his general store at Beiseker to Arthur Wheeler who has moved the store to Acme. Mr. Hagel will go into the implement business.

The Methodist Harvest Services are being held tomorrow. Owing to the difficulty in getting special talent this week the concert announced for Monday will not be held.

Mr. A. Lane and his son and daughter left for Leamington, Ont., on Wednesday. His son S. J. Lane is accompanied by his wife and family and is returning to his home in Leamington.

It is to have a good skating rink this year. A Sackett has commenced to erect one south of town. Posts are being put in and all will be in readiness for the coming skating season. This year's rink will be 196 x 180 feet.

A meeting of the shareholders of the Crossfield Creamery Association will be held in Geo. Becker's office on Monday, November 8th at 2 o'clock sharp for the purpose of considering a resolution for the sale of the assets and winding up of the association.

Away back last April Mr. Tweeddale advertised a stray heifer. This week Jim Maylor rounded it up with some of his animals and after a hunt through a file of old copies of this paper he came upon Mr. Tweeddale's advertisement. He then promptly restored the animal to its owner and got the reward. It pays to read the advertisements and it pays to advertise.

The best money-maker on the farm is the hen. She turns grass into greenbacks, grain into gold, and from the sand and gravel she coins silver. There is nothing else on the place to compare with her. The cattle and horses are heavy customers, and to get their value we must part with them; but not so with the hen. In her small way she is a gold mine on the face of the earth; a mill that grinds that which others overlook or refuse.

NOTICE

We beg to announce to our readers and subscribers that the Crossfield Chronicle and Airdrie News have changed hands. The new proprietor taking over the business on Monday November 1st.

We would take this opportunity of thanking those who have assisted with their subscriptions and advertisements. To those who receive statements of their accounts with us we would say that a prompt settlement will be appreciated.

The Ex-Editor.

AIRDRIE.

How about these sidewalks?

Presbyterian services at 3:30 p.m. See Glover & MacCormack for new goods.

Methodist Sunday services at 11 a.m. and 7:30 p.m.

Prayer meeting will be held on Thursday evening.

Harvest Thanksgiving Services next Sunday and Monday.

If you want a good fire insurance policy apply to H. T. Glover.

Harry Bowen, of the pool room was a visitor to Calgary this week.

Rev. J. H. Johnston is attending special meetings in Edmonton this week.

The Laundry has opened for business.

Mr. and Mrs. Stouf and family left for Kansas City on Monday.

Frank Riss has bought a fine new threshing outfit having sold his old one.

Next Sunday special Harvest Thanksgiving services will be held in the Methodist Church. Special addresses will be given. On Monday night a harvest supper and concert will be given in the hall. Special music and singing. A hearty welcome will be extended to all.

J. A. Kraker, representing the Bull Specialty Co., of Toronto, spent a day in town this week in the interests of his company. Mr. Rogers has been appointed local representative of the company.

We are pleased to learn that our friend J. E. Gustus, now residing in Calgary, but who owns two farms east of Airdrie has recently accepted the position of Assistant Sales Manager with the Canadian Pacific Irrigation Colonization Co. Limited Calgary. We understand the responsible position Mr. Gustus is filling will not preclude him from looking after his farming interests as well.

Write or call on Hulgren & Davie the Land Men of Crossfield, for bargains in land from \$6.50 per acre and up. We have listed in our office all the best bargains of raw and improved land in the Crossfield, Carstairs and Airdrie districts.

MARRIED.
ANDISON—CALLOWAY.—On Wednesday, 27th October, at All Saints Church, Cochrane, Elisabeth Euphemia, eldest daughter of E. J. Caloway, of Brushy Ridge, to Joseph James, elder son of Joseph Andison, of Stanwix, Carlisle, Cumberland, England.

NOTES AND COMMENTS.

The requirements of the country teacher are not many. She must be a primary, intermediate, grammar grade, high school teacher combined; she must be able to build fires, adjust fallen stove pipes, put in window panes, sweep, dust, split kindling, drive a horse, keep out the neighboring quarrels, know how and where to whip a bad boy, understand the school laws, raise money for libraries, keep all kinds of records, plant trees on Arbor Day, be of good moral character, and pass an examination in the branches of modern education. For these accomplishments, she receives \$30 a month. Out of this she pays her board, buys her clothes, attends the summer schools, buys educational papers and books, attends county conventions, and furnishes state pencils for the pupils. What is left she adds to her bank account, or starts a bank if she prefers. Unless something is done to reduce the wages, school teachers will have a monopoly of the wealth of the country and we will find in our midst a labor organization which will menace our free institutions and enslave our tax payers.

"We believe," says an exchange, in "Energy and Push." It depends entirely upon their direction. The man who devotes energy to shooting off his mouth, and pushes most of the time against the top side of a dry goods box on some street corner is not much to be believed in.

It is not generally known that the King has been converted into a cinematograph "turn." Until a few years ago his Majesty had a distinct aversion to this form of exercise, but, following lead of the Emperor Francis Joseph, he has submitted to the snapping of the cinematograph operator on the yacht of King of Italy, during his vacation of 1910, and in the early part of 1911 when the attack on the dreadnoughts was made by the torpedo boats at Cows, and during the Lancashire review of the Territorials. Now he has given permission for arrangements to be made for the taking of a hunt to be held at Sandringham in November, and these features are to form one of the attractions at the Vienna International Shooting and Field Sports Exhibition of 1910, in response to the request of the president.

Drop the reins of government occasionally and be a child with your children. These movements of sympathy with their delights will deepen your influence more than severe disciplining and be remembered longer.

How easy it is to admire people who agree with us.

Old times are sweetest and old friends surest.

CONAN DOYLE'S FISHING STORY

I once had the best of an exchange of fishing stories, which does not sound like my veracity. It was in a Birmingham inn, and a commercial fisherman, a very successful one, ventured to back the weight of the last three fish which I had been concerned in catching against any day's take of his lifetime. He closed with the bet, and quoted some large haul, a hundred pounds or more. "Now sir," he asked, triumphantly, "what was the weigh of your three fish?" "Just over two hundred tons," I answered. "Whales?" "Yes, three Greenland whales." "I give you best," he cried; but whether as a fisherman or as a teller of fish stories I am not sure. As a matter of fact, he had only retained the first fish from the Arctic seas, and that three fish in question were in truth, the last which I had helped to catch.—From the "Strand Magazine," September.

Indicates that the Trust Company is willing to guarantee your investment, so if the Mining Company fails to make good, they will pay your money back out of their treasury. We sell this stock, with the Trust Company's guarantee, at \$6c. per share, par value \$1.00 as long as our present allotment lasts.

Write without delay for further information, or better still send in your subscription for as much of this stock as you want, for this stock is going fast, and, as soon as this allotment is sold, we will raise the price to \$1.00 per share.

FLEMING.**Something New****It is for you Laboring
Man, Business Man or
Capitalist?**

If you are a laboring man you want to better your condition and provide for time of need, sickness or old age. Your business man, want to make money faster than you do? Of course you do. We all like to get hold of the dollars and pile them up faster, and though you, capitalist, have abundance of this world's treasures, still you want to see your money make more money for you.

It is the Law of Nature born in man. The more we have the more we want, and it is quite right too, to make all you can if you make it honestly.

Now here is our "New Plan" for selling mining stock, making new in value, not stop, rest and see what is selling. Mining Stock of a company that has its holdings in one of the richest districts in America and therefore if you buy its stock you stand a chance to make a fortune. You know many fortunes were made in the past and many more will be made in the future, in mining. But you say many invested and lost it is true, but the proportion of what you have all the chance to make the big profits, and besides your original investment is guaranteed so that you can't lose the money you invest.

Here Is Where Our New Plan Comes In

YOUR INVESTMENT is positively GUARANTEED, not by the Company, but by an INDEPENDENT REPUTED FINANCIAL COMPANY. This Trust Company will give you a written guarantee that your Company will pay you 100 per cent. on your investment in a specified length of time, the Trust company will pay back to you every dollar you invested and besides it keeps the stock and dividends you received in the meantime. Think of it, what this means to the investor.

When a Mining Company uses such a safe proposition to offer that an independent Trust Company is willing to guarantee your investment, so if the Mining Company fails to make good, they will pay your money back out of their treasury. We sell this stock, with the Trust Company's guarantee, at \$6c. per share, par value \$1.00 as long as our present allotment lasts.

Write without delay for further information, or better still send in your subscription for as much of this stock as you want, for this stock is going fast, and, as soon as this allotment is sold, we will raise the price to \$1.00 per share.

H. Hosteller & Co.,

WANTED:

LADIES to do plain and light sewing at home, whole or spare time; good pay, work sent any distance; charge paid; send stamp for particulars. National Manufacturing Co., Montreal.

An Expert

"You wish a position as chef?" interrogated the hotel man. "Had much experience?"

"I should say no boss," responded the applicant. "I used to cook and long whiskers."

"Indeed! And what is your experience?"

"Why, I know how to prepare boots in twenty different ways."

The change of dietary that comes with spring and summer has the effect in weak stomachs of setting up inflammation, resulting in dysentery and colitis. These are common conditions which will continue if not attended to and will cause an exhaustive drain on the system. The best available medicine for Dr. C. E. Stanfield's Dysentery Cordial. It clears the bowels and bowels of irritants, counteracts the inflammation and restores the organs to healthy action.

A gentleman who had been spending a few weeks' holiday at a pleasant seaside resort told his host in the inn he asked one of the caddies if he got much carrying in the winter time.

"Na, sir, na," replied the caddie. "There's no carrying in the winter time. Ye see, it's this way: if it's na-sna, it's frost; if it's no frost, it's a-sna"; if it's neither sna' nor frost, it's rain; if it's not rain, it's wind; and if it's a day, it's the Sawbath."

Deafness Cannot Be Cured

by local applications, as they cannot reach the deeper parts of the ear. There are no nerve densities, and that is by constitutional remediable means. The only method is to have a continuous lining of the鼓膜 (tympanic membrane) tube. When this is done, the ear is restored to its normal perfect hearing, and when it is entirely closed. Deafness is a condition which must be taken out and the tube restored to its normal condition.

Out of 100 cases of deafness treated by Dr. C. E. Stanfield, 90 were cured.

We will give One Hundred Dollars for any case of Deafness treated by Dr. C. E. Stanfield, and a free copy of Harry's Cure Book for circulation.

How to Druggist, 78, COPENHAGEN & CO., Toledo, O.

Take Hail's Kidney Pills for recuperation.

Three weeks he had borne all the horrors of house-cleaning without a murmur. Then his patience gave way.

"And you," sobbed his wife, "you used to be so kind to me."

"Yes," he said, with a wistful glint in his eyes; "but when a man finds his queen has used his best tobacco—far pale oak varnish and his merchandise—nothing for a tack hammer, he begins to grasp the advantages of a republic."

What Troubled Him

Willie—Say, mother, will it hurt to have this tooth out?

Mrs. Silvers—Naturally; but it will be better that you won't have time to think—just a turn and it will be all over.

Willie—um—that's all that could happen to me if I had my head pulled off.

BETTER THAN SPAVING

Spaving does not cure children of bed-wetting, but it is a consideration for this trouble. Mrs. M. S. Summers, Box W. 77, Windsor, Ont., will send free to any mother her successful treatment.

Send me money but write to-day if your children trouble you in this way. Don't blame the child; it is the parents' fault. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

Frosts in Petates.

Calgary business men are bed-wetting, but it is a consideration for this trouble. Mrs. M. S. Summers, Box W. 77, Windsor, Ont., will send free to any mother her successful treatment.

That Kidney Disease, neglected in its earlier stages, leads to the most terrible suffering. If not death, it will shorten life.

At Athabasca Landing, Alta. (Special)—That Kidney Disease, neglected in its earlier stages, leads to the most terrible suffering. If not death, it will shorten life.

But it kept gradually growing worse, till after thirty years of increasing suffering the climax came, and he found himself unable to walk. At times he could not turn in bed, and for two weeks at a time it was impossible for him to rise from chair without putting his hands on his knees.

He could not button his clothes. He was troubled with Lumbago, Gravel and Backache, and tried medicines and various cures, but without getting rid of the disease.

He was now stored at Strathmore in three-room houses each 60 feet by 20 feet, the total storage being 25,000 bushels. One fall turned him to his car, which would be required to bring the crop if it were necessary to shear all at once.

Normal Evolution.

There may come a time when there will be an imperial fleet jointly owned by all the dominions and administered by a central authority which the dominions will be represented. But this will not be the next stage in the development of imperial defence. The first stage will be the formation of a naval force by each of the dominions.

Dodd's Kidney Pills will never have Lumbago, Rheumatism, Heart Disease, Dropsey or Bright's Disease.

Cruel Woman.

"My wife is one of the most inconsiderate women in the world."

"Why do you think so?"

"She always keeps baby's bed last night, and consequently the mosquito hardly gave me a chance to get a wink of sleep."—Brownings Magazine.

Unkind.

Author—Don't you think my latest article exhaustive?

Editor—I certainly hope it has exhausted you sufficiently to prevent your writing anything more for some time.—Houston Post.

As a Guest.

The stranger had been compelled to linger two or four hours within the gates. "Well," queried the landlord of the village inn, "what do you think of our place as a summer resort?"

"I hate to tell you," answered the stranger as he picked up his grip-sack. "Even what I think of it as a last resort would not look well in print."

Why Stanfield's Make Underwear

Up to 20 years ago, most everyone considered that all Underwear—no matter how well cut and made—would shrink and harden.

In those days, the makers were working on the wrong idea. They were trying to find a way to finish Underwear so that it would not shrink, instead of trying to find a way to get the shrink out of the wool before the yarn went to the knitting machines.

The late C. E. Stanfield—who knew wool as only a man can know it who studies it from the sheep's back to the wearer's back—gave his attention to the problem for years.

Living in Nova Scotia, he soon realized that woolen underwear, and the best of the Canadian against the rigorous Canadian Winter. He found that as underwear was then made, he could not make woolen underwear that would not shrink, mat and harden. He devoted himself to this problem and after many years of experimenting, he finally discovered a method by which he could take the shrink out of the wool before the garments were knitted.

This method, improved and perfected, has made possible the immense business of Stanfield's Limited, with a larger output of their special classes of Underwear than any other factory in Canada.

The Stanfields make underwear today because Canadian people find Stanfield's Underwear the most comfortable, the most durable, and the warmest for its weight.

The Stanfields are making more underwear every year because the buying public demands more of it. Popularity is a good test of quality.

In 3 sizes—weight Light (Red Label), medium (Blue Label) and Heavy (Black Label).

Hundreds of men and women, and the requirements of every man and woman.

The best dealers everywhere handle Stanfield's Underwear.

WHAT NEGLECT DID FOR HIM

JAS. E. BRANT SUFFERED TOR-
MENTS FROM KIDNEY
DISEASES.

Then he Used Dodd's Kidney Pills
and Became Well Again—His Ex-
perience a Lesson for You.

ATHABASCA LANDING, ALTA. (Special)—That Kidney Disease, neglected in its earlier stages, leads to the most terrible suffering. If not death, it will shorten life.

At Athabasca Landing, Alta. (Special)—That Kidney Disease, neglected in its earlier stages, leads to the most terrible suffering. If not death, it will shorten life.

But it kept gradually growing worse, till after thirty years of increasing suffering the climax came, and he found himself unable to walk.

He could not button his clothes. He was troubled with Lumbago, Gravel and Backache, and tried medicines and various cures, but without getting rid of the disease.

SHIPPING OF LIVE STOCK

IMPROVEMENTS SUGGESTED BY GOVERNMENT OFFICIAL.

A. F. Dillingham Sends an Elaborate Report to Railway Commission on the Question of Live Stock Transportation—Many Valuable Suggestions are Elaborated—Should by Regular Shipping Day on Branch Lines.

Ottawa.—A. F. Dillingham, operating agent for the railway commission, has sent to the commissioners a more elaborate and comprehensive report on the question of live stock transportation in the west than has been extant. It was the C. P. R. Co., G. N. W. and G. T. P. made a first hand study of the whole problem.

He makes a number of important recommendations which are likely to be acted on by the board shortly. He suggests that each section foreman be made responsible for the condition of the stock yards and sections and repair and keeping the yards clean.

Another suggestion is that the yards except where there are gravel lots, should be graded and timber covered with cinders providing proper drainage. This he thinks will be more economical and will last for years.

The third recommendation is that the practice of building stock yards in connection with grain loading platforms be discontinued. Instead, he points out, to load stock at the same time as grain and heavy machinery is being loaded. It often results in the loss in loading time. A suggestion in regard to watering the stock is that where railway tanks are located near the station action be made at the bottom of the tank to allow a flow outside of the tank allowing shippers to obtain water which they can haul to the stock yards. He recommends that the cost of remodelling of the yards, as the present arrangement is inconvenient and unsatisfactory.

Probably the most important recommendation from a shipper's standpoint is that the railways establish a stock shipping day once a week on branch lines and not on branch lines. To assure fast shipments he suggests that trains be run 20 miles of time to freight and as far as possible to terminals and day cut out in order to make faster time.

A valuable feature of Dillingham's report is the wealth of detail as to stock yards in the west. He gives the cost of every shipping point in the west and embodies in his report the condition of the yards, any improvements necessary, the amount of stock shipped, etc. The report is almost encyclopedic in its nature.

Orientals Cannot Work on G. T. P. Vancouver.—W. L. M. King, minister of labor, in a letter to Mr. Cannon, explains that the statements he made at the recent meeting of the Trades and Labor Council of Vancouver relative to the cost of the Grand Trunk Pacific railway, should not be construed to mean that the government contemplates allowing the work to be done by Orientals.

He goes on to say that what he said was that there is likely to be considerable difference in the cost of the Canadian and Chinese labor. The lines, because the former was constructed by imported Chinese laborers and the other with white. He also says that the government has no intention of letting down the bars to the Orientals as a means of cheapening the cost of the Grand Trunk, and has not even been requested to do so.

Canadians Gain Some Concessions Ottawa.—A. Ruddick, Dominion laborer, in a letter to Mr. Cannon, explains that the statements he made at the recent meeting of the Trades and Labor Council of Vancouver relative to the cost of the Grand Trunk Pacific railway, should not be construed to mean that the government contemplates allowing the work to be done by Orientals.

He goes on to say that what he said was that there is likely to be considerable difference in the cost of the Canadian and Chinese labor. The lines, because the former was constructed by imported Chinese laborers and the other with white. He also says that the government has no intention of letting down the bars to the Orientals as a means of cheapening the cost of the Grand Trunk, and has not even been requested to do so.

Socialists Made Gains in Germany. Berlin.—The dist elections in Saxony and Baden show large Socialist gains. The Socialists gained seats in Dresden, Leipzig and Chemnitz, and received mandates from the Conservatives in the country districts. Ten Socialists had been definitely elected and 35 others were returned. In Baden, both Socialists and Liberals had big gains in the city districts, the Clericals and Conservatives losing some seats.

Farmers Makes Longest Flight Blackpool.—Henry Farmer has been awarded the grand prize of \$10,000 for the longest flight at the aviation meet held here. He covered 47 miles the other day in 1 hour 50 minutes. Rouquier was second and Paul Ham third.

Threat from Companies Quebec.—The James Muir Co. and the Riverside Shoe company, employing 550 hands, threaten to move from Quebec on account of unfavorable labor conditions there, and will move to Montreal.

SUBSIDY FOR AUSTRALIAN LINE

Imperial Export Company of Toronto Applies for Government Assistance

Ottawa.—The annual subsidy of a quarter of a million per year for three years in aid of a proposed line of steamers between Canada and Australia and New Zealand was applied for by a deputation of marine and manufacturing interests, which waited upon Sir Wilfrid Laurier, Sir Richard Cartwright and Hon. Messrs. Patterson and Patterson. The line is being planned by the Imperial Export Company, Toronto, and its steamer would run from Montreal, Quebec, St. John and Halifax.

It was understood that at the present time a general proposition of Canadian freight from New Zealand goes through New York. Six sailing vessels are proposed. The company also proposes to retain the services of steamers and guarantees a minimum of 50,000 tons of freight for each sailing vessel which they would be entitled to receive. It was also considered that the new line of steamers would prove a great factor in the development of inter-imperial trade.

The present proposal, it was the matter to be taken up and carefully considered by the cabinet council. The deputation which was introduced by Mr. E. H. McMaster, Mr. P. Smith, Mr. McMaster of Montreal, Mr. C. A. McCool, Mr. Owen Sound; C. A. McCool, Mr. and several local representatives of manufacturing firms.

King Alfonso Stays At Home

King Alfonso has abandoned his daily outings, the Daily Chronicle's Madrid correspondent reports in a dispatch from the Spanish capital. He has worn a dejected appearance and letters from friends expect that his health may be affected. It is assumed that he is already in a sinking condition.

Notwithstanding statements to the contrary, and the apparent truculence of the Spanish press, the prince, to the careful observer it is but a sham. No one acquainted with the situation will deny that the anarchist movement is daily growing to avenge Ferrer's death. Threatening letters are pouring in from the official residences of ministers. The letters are scolded by large bodies of detective force.

The censor has doubled the stringency of his methods and it is almost impossible to send any news unfavorable to the government by wire.

Between Deep Sea and Tax Collector

London.—Miss Elizabeth O'Farrell, a young Canadian from Vancouver, has come to the department of justice and complains that a number of Canadians have been induced to sell at the cost of known to Ocean Beach, Cuba.

The man of land which is being advertised in Canada, he says, is resulting only in profit to the owners which own it.

He claims that the municipalities—Mauritius and Guayaquil—both claim the right to collect taxes from the newcomers. One municipality, he says, is threatening to arrest him if they refuse to do so. One of the Canadian writers to the Vancouver paper says the man is being treated like a pugil between two stones. Several Canadians were arrested and fined.

All Red Bike Route

Edmonton.—Maxwell Clarke, an Englishman, who is touring the "all red road" of the British empire on a bicycle, started his recent tour and started to ride to Calgary. He had completed a trip of 3,000 miles on a bicycle, including a tour of Australia. At Portage la Prairie he had travelled 30,000 miles on British soil.

In his words he has accomplished the "all red route" by labor and hospitalization, having suffered a severe attack of appendicitis while he could not get work he trusted to his bicycle.

He has talked with all prominent men in Alberta and had the signatures of Lord Strathcona, Sir Wilfrid Laurier and others in his diary.

France Rejoices at Defeat of Maure

Paris.—The French press fails with the exception of the *Figaro* to insist that the change of government marks the beginning of better days for that monarch. The *Figaro* writes: "That the possibility of Franco-Spanish complications regarding affairs in Morocco appears to have passed. The new government will be able to give the country a more peaceful atmosphere."

The new government was due to the defeat of the Conservative Government, manifested abroad, to the domestic situation.

What Canadian Preferences Meant

London.—Lord Milner said that he had asked a man, whose business it was to study the question of importation of British goods to Canada, to tell him how far off the mark he was. The man was non-partisan, but had great interest in the subject. He replied that he had given Great Britain whatever trade he had with Canada.

Britain Wins Talk With Mr. Oliver

Ottawa.—The Canadian South African Veterans' delegation saw Sir Wilfrid Laurier and Sir Frederick Borden in regard to obtaining land grants. Sir Wilfrid Laurier promised to take up the matter with the Minister of Interior on his return from the west.

CHANCE FOR HOME RULE

EVERYTHING HANGS ON ACTION OF HOUSE OF LORDS

T. P. O'Connor, Member of Parliament for Liverpool, is very hopeful of Attainment of Home Rule for Ireland—Believes That a General Election Over the Budget Crisis Would Help the Cause Considerably.

New York.—Budding hopes for Home Rule for Ireland are held out by T. P. O'Connor, member of parliament for Liverpool, one of Ireland's chief lieutenants, who arrived on the Lusitania to spend a short time in this country raising funds to aid the Irish party in their present difficulties.

As the situation now stands everything hinges on the action to be taken by the House of Lords on the budget, said Mr. O'Connor.

"If the budget is thrown out by the House of Lords," said Mr. O'Connor, "it means a general election, which would be a blow to Ireland because it is bound to be followed by a fair balancing of the parties that will make the Irish vote an important factor in parliament."

No Judge what the House of Lords will do, but it is not difficult to predict the impression that it would pass the budget but you hear something very different every minute. I regard the outcome for Home Rule very favorable."

A deputation from the municipal council of the United Irish League of America greeted the Irish leader on his arrival.

Don't Believe in Hudson Bay Route

Montreal.—Addressing the National Club on the question of trans-Atlantic shipping, Senator Casgrain expressed a strong opinion that the Hudson Bay route should not be adopted for the carrying of grain or other produce from the northwest to Great Britain, as the presence of the ice during the months of year and the cost of insurance would much more than balance any saving by the short land route.

Senators.—Senator Casgrain remarked that he was not opposed to the building of a railway to Hudson's Bay by the government, as mine workers are scattered in the adjacent country and fisheries in the bay, which could at some distant date make such a road profitable. But as a shipping route he had no confidence in it.

Senate to Review Estimate

London, Eng.—David Lloyd-George, chancellor of the exchequer, presented in the house of commons the budget estimate as revised by him. The new original estimate aggregating \$10,500,000, of which \$4,000,000 may be accounted for by the decreased revenue on oil, was not so far above the previous estimate as to call for higher taxes to be levied against them. To offset these decreases there are estimated increases of \$9,500,000 included in the shape of death duties, totaling \$6,500,000 more than was originally expected and thus saving the chancellor the task of meeting the budget deficit. To meet a shortage of \$1,250,000, Mr. Lloyd-George proposes to take \$2,500,000 more out of the sinking fund.

Taft Praised by W.C.T.U. Members

Omaha, Neb.—Mrs. Stevens, the national president, who directed her annual address, feathered her nest with a not of congratulation to president Taft, on his stand on the temperance issue. "For Mr. Taft to set the example of strict adherence to the cause of temperance is a service of great rejoicing by those who care for humanity's weal," said Mrs. Stevens. "Mr. Taft is entitled to grateful appreciation of a thrice grateful nation."

The work of securing a federal law which will prevent interstate shipment of women in political advertising will be continued by the Senate.

Mr. Taft, on his stand on the temperance issue, was commended. Speaker Cannon is charged with having prevented the passage of a bill designed for that purpose throughout the last congress.

Proposed Test for Suffragettes

London.—Marie Corelli retires in anger after trifling her health by a series of tests which she found painful.

She was assisted by a doctor who

had been induced to believe that she would be willing to undergo a test which he proved able to

administer. She says she must acquire a building, furnish it like the House of Commons, and handle for three years the same subjects being tested.

If the women of Great Britain did not period of gallantry of violent clasp-trap or actions, if they endure all that she endures, will push their cause in the public in their night gear, and if let them show themselves wiser than men let them vote.

Ten Thousand Parish

London.—Dispatches from Calcutta state that fully 10,000 persons participate in the religious service that swept over the city during the Ganges.

The wind raged with cyclonic fury, and many others who were unable to attend services were compelled to remain at home.

The women of Calcutta are particularly heavy among the river craft, several steamers are also reported sunk.

Railway Building at Stettler

Stettler, Alta.—The C. P. R. grade is practically finished to Stettler, and rails have been laid about half-a-mile of town. Nothing is being done at present in the way of further track laying on the part of the contractor.

The C. P. R. is grading up to Lethbridge, and will have a high level grade, 60 miles long.

There are hundred teams are at work

out of the town. Five hundred men

wanted to push the grade towards Calgar.

No More Powers for Manager Hayes

London.—At a meeting of the Grand Trunk directorate Sir Charles Riverside, managing director, and rats were held to be laid about half-a-mile of town. Nothing is being done at present in the way of further track laying on the part of the contractor.

He became president of the company, but had no more power now than he had before. The board would not accept his resignation.

He had no authority to bind the company, and intimated that the company might ask the government to

Danish Cabinet Resigns

Copenhagen.—The cabinet has resigned after parliament had passed a bill of credit on the government.

The session was exciting.

RAPID RAILWAY EXTENSION

The Saskatoon-Strathcona Line Will be in Operation in a Very Short Time

Edmonton.—The action of the Canadian Pacific Railroad in spending \$1,200,000 in constructing a bridge over the Saskatchewan River at Strathcona, Edmonton and Strathcona is believed to reveal the intention of the company to extend its line into the Athabasca Park. Both the Indians and the company would like to build a line to the coast by way of the Pine River Pass. It is not thought probable that the company would go so much money to reach Edmonton alone.

The new line will, it is thought, be a continuation of the one just completed between Wamsutter and Piney, by way of Wetsaskiwin, and will pass through one of the richest agricultural and mining belts in the Dominion.

The new line will connect with Strathcona through Central Alberta to Strathcona by way of Wetsaskiwin was finished last week, and the company is now working on the completion of the main line through the prairies, giving direct connection between Winnipeg and Edmonton. F. Peters, president of the Canadian Pacific, White, announces that the operation of trains on the new line will begin this fall, but whether it will mean the running on one of the trains on the Strathcona-Galaxy line, he cannot yet say.

Lloyd-George Had to Revise Estimate

London, Eng.—David Lloyd-George, chancellor of the exchequer, presented in the house of commons the budget estimate as revised by him. The new original estimate aggregating \$10,500,000, of which \$4,000,000 may be accounted for by the decreased revenue on oil, was not so far above the previous estimate as to call for higher taxes to be levied against them.

To offset these decreases there are estimated increases of \$9,500,000 included in the shape of death duties, totaling \$6,500,000 more than was originally expected and thus saving the chancellor the task of meeting the budget deficit. To meet a shortage of \$1,250,000, Mr. Lloyd-George proposes to take \$2,500,000 more out of the sinking fund.

Status of the Western Teachers

Montreal.—Dr. John Stathers, secretary of the Board of Education, department, with headquarters in London, who has been visiting the different Canadian centres, said prior to his departure, "For Mr. Taft to set the example of strict adherence to the principles of temperance is a service of great rejoicing by those who care for humanity's weal," said Mrs. Stevens.

Mr. Taft is entitled to grateful appreciation of a thrice grateful nation.

He says, however, that the status of the western teachers is not high enough, as he remarked that a young girl out of the course would command the splendid salary of \$600 per annum.

In fact he thought that when the trained teachers of Scotland hear of these prices, there will be a general movement towards the plains of Western Canada.

Indian Corn Grown in Alberta

Calgary.—That Indian corn can be grown with success in Alberta was demonstrated by samples of a crop raised by George Lane, of Strathmore, and which were received by Mr. Winn of the immigration agency.

Mr. Lane, who is engaged in this direction, proved conclusively that the climatic conditions are most favorable for the growth of Indian corn in Alberta.

Next year Mr. Lane will plant twenty acres of Indian corn—the first corn crop which has been produced in the province.

Edmonton Will Probably Get Bridge

Edmonton.—The C. P. R. agreement providing for the entrance of the railway company into Edmonton by the construction of a bridge across the North Saskatchewan River, was signed by Mr. Justice Magee, the chief justice of the province, and the ratifiers, having been given its three readings at an adjourned meeting of the city council. The agreement will be once advertised and voted upon by the ratifiers.

B. C. Is Undecided

Victoria.—A member of the cabinet announced that the B. C. government, which had been informed by the premier's reply to the Winnipeg delegation, that it largely depends on what the Dominion government and the other provinces will do, is still undecided.

British Columbia will be in the foreground for putting in a creditable exhibit.

Mount Vesuvius Acting Up Again

Naples.—Mount Vesuvius is again very active. Quantities of stones were thrown out the other day, falling in the streets. The writer was present at the eruption and witnessed the great destruction.

This is considered the most serious eruption of Mount Vesuvius since 1866.

Would Abolish the Jury System

Toronto.—To Mr. Justice Magee the grand jury recommended that consideration be given to abolishing of the jury in cases where capital punishment might apply, in order that evidence might be weighed by those most capable of judging guilt or otherwise.

Minutiae Rifle League

Ottawa.—The Canadian rifle League hopes to organize a minutiae rifle league in Canada this winter.

THE AMBITION OF JAPAN

ASPIRES TO BE MISTRESS OF THE PACIFIC

The Navy League Annual, Just Published, Contains an Article by M. Satori Kato, That Is Full of Significance—Japan Can Build Her Own Navy at Home, and Can Man Ships With Heroes.

London.—An article which is likely to be much discussed and creates some degree of nervous apprehension in certain quarters appears in the Navy League Annual just published. It is signed by a Japanese, M. Satori Kato, who is clearly no novice in his subject.

"The Master of the Pacific," is the title given to the article. It seems to detect the occasion of it in its delicately satirical allusion to the recent cruise of the American fleet in the Pacific.

"In itsfeat of conducting a modern armada around the world the United States of America, says the Japanese writer, "has shown its luxury."

The object of the article apparently is to show Japan how to perfect her problem of naval construction; that the islanders can build warships with material, products and skill, provided that the Japanese government does nothing to hinder them.

What is allowed or disallowed," observes M. Satori Kato, "Japan's instinctive aspiration is to be mistress of the Pacific. All is peace for the present, but the moment may know how soon the world may be plunged into war.

The alliance with Great Britain may be annulled some day, but even then Japan will conquer, for she is prepared to meet men, so to speak, slightly stronger than armor plates."

CROSSFIELD LODGE I. O. O. F.

AT THE WHITE HOUSE

A Stewart at \$1,000 a Year Will Do
Mrs. Taft's Marketing.

Mr. Taft has the reputation of being an excellent housekeeper. But little of this kind of work will fall to her lot, as mistress of the White House. A steward is to be paid \$1,000 a year to look after such matters.

It is his duty to hire all the servants, to give orders to the housekeeper and to do all the marketing. He is provided with a government Dayton wagon to use in doing his work.

He is a small government official, who under the terms of a bond of \$20,000 given before he enters upon his duties is personally responsible for all government property used in the White House. This includes table linen, plates, glasses, furniture, carpets and ornaments.

Whenever the first lady of the land wishes any repairs or changes made she has simply to call upon the engineer in charge of the work, who is detailed in the dual capacity of superintendent of public buildings and grounds and master of ceremonies at the White House. He is allowed \$35,000 a year for the care and refurbishing of the mansion and a sum of \$600 a year for fuel, \$300 for greenhouse and \$400 for care of the White House grounds.

All food bills, including those for the four state dinners given each year or for the entertainment of distinguished guests, must be paid out of the president's own private funds. The four state banquets usually cost about \$1,000 each. The floral decorations for the White House, however, come from the gardens of the First Lady. The music, too, is free, being furnished by the famous Marine band at Washington.

In the basement of the White House the new mistress will find two modern kitchens, a large laundry room and a walk-in pantry, a laundry containing a large dish washer with a capacity of 2,000 dishes and plates. At the state dinners, over which she presides, the viands, prepared in her two kitchens by one of the best caterers in the country, will be served on a \$30,000 service of silver plate. The glassware and chinaware bought under the Roosevelt regime and the historic silver plate collected by White House matrons since Adams time.

TO KEEP YOUNG.

Learn Self Control—Anger is Rapid
Whitehead, Barlow.

It is every woman's duty to keep young looking as long as possible, but unfortunately she does not always know the best way to live up to that duty.

Avoid worry, hurry and getting flushed.

Learn self control. Anger is a rapid wrinkle bringer.

Be temperate. Moderation does not only refer to the stomach. Overdoing in any way marks the premature age.

Love the open air. Fresh air is not a fad; it is a necessity for one would keep young.

Get plenty of sleep. Nothing lessens the face like nights of wakefulness. Keep mentally alert. An intellectual mind makes added years a healthy long age. Nothing makes for youth like a young mind save perhaps a young heart.

Don't let yourself get sluggish and indifferent. Health is where the benefit of exercise, physical culture and a vital interest lie close together.

Don't let your face reflect every perplexity. The woman who keeps young need not wear a mask, but she should guard against the so called "speaking countenance" if she does not want a fair crop of wrinkles.

HINTS FOR HOUSEWIVES.

A great many blemishes on wall paper may be removed with a rubber on a lead pencil.

Dried lemon peel syrup over coal dust destroys any disagreeable odor about the house.

Combs soon warp and break if washed with water. A good stiff nailbrush cleans them well.

Potato water is excellent for cleaning mud stains from nearly any kind of cloth or garment.

Finger nail polish should be sanded as gently as possible. Much of the heavy cake and bread is the result of its being banged in closing.

An India rubber hot water bottle is easily cleaned. Wash it well with lukewarm water and soap, rubbing on the surface with a cloth of flannel.

When ironing a starched garment and a part of it becomes dry do not dampen with water, but with a cloth wet with a little cold starch. This will keep all parts of the garment of equal stiffness.

The best way to freshen home-made bread so that it is as good as new is to dip the loaf in cold water, put it in a pan and bake it until it is heated through. Then wrap it in a damp cloth, and when cold it is as good as when first baked.

A CAR OF
"Ontario Apples"
